**About Directa Plus**

Directa Plus ([www.directa-plus.com](http://www.directa-plus.com)) is one of the largest producers and suppliers of graphene-I consumer and industrial markets. The Company's graphene manufacturing capability uses proprie based on a plasma super expansion process. Starting from natural graphite, each step of Directa F expansion, exfoliation and drying - creates graphene-based materials and hybrid graphene mater uses and available in various forms such as powder, liquid and past.

This proprietary production process uses a physical process, rather than a chemical process, to pro graphene nanoplatelets, which enables Directa Plus to offer a sustainable, non-toxic produc products. Directa Plus's products are made of hybrid graphene materials and graphene nan (marketed as G+®) have multiple applications due to its properties. These G+® products can be families, with different products being suitable for specific practical applications.

Directa Plus was established in 2005 and is based in Lomaz (Como, Italy) and has been liste the London Stock Exchange since May 2016. The Company holds the Green Economy M Exchange which recognises companies that contribute to the global green economy.
